**BACKGROUND:** As requested by the USTR, the Commission will provide a report containing its advice as to the probable economic effect of modifying tariffs for six products specified in the request. The products are included in a List of Environmental Goods endorsed by leaders of the Asia-Pacific Economic Cooperation forum in 2012. Leaders agreed to reduce applied duties on such products to 5 percent or less by the end of 2015. Broadly, the affected imports covered by the list are steam turbine parts and certain types of wood flooring.

The USTR stated that portions of the Commission's report will be classified as national security information and that the USTR considers the report to be an inter-agency memorandum that will contain pre-decisional advice and be subject to the deliberative process privilege.
